Dr. Feng Li

Curriculum Vitae

Personal information

Given name/Surname:	Feng/Li	Name in Chinese:	李丰
Place of birth:	Inner Mongolia, China	Citizenship:	China
Gender:	Male	Languages:	English, Chinese

ORCID 0000-0002-4248-9778 https://scholar.google.com/citations?user=IN2QMXYAAAAJ

Position

July 2024 – present **Associate Professor** Department of Business Statistics and Econometrics, Guanghua School of Management
Peking University, Beijing, China

Employment history

November 2020 – June 2024	**Associate Professor**	School of Statistics and Mathematics Central University of Finance and Economics, Beijing, China
July 2016 – December 2022	**Associate Dean**	School of Statistics and Mathematics Central University of Finance and Economics, Beijing, China
September 2013 – October 2020	**Assistant Professor**	School of Statistics and Mathematics Central University of Finance and Economics, Beijing, China

Contacts

Department of Business Statistics and Econometrics
Guanghua School of Management, Peking University
No. 5 Yiheyuan Road, Haidian District
Beijing 100871, China

Education

2008–2013 **Ph.D. in Statistics**, Stockholm University, Sweden.
Supervisor: Prof. Mattias Villani.
Thesis: *Bayesian Modeling of Conditional Densities*.
Awarded the 2014 Cramér Prize for the best Ph.D. thesis in Statistics and Mathematical Statistics by the Swedish Statistical Society.
Thesis opponent: Prof. Sylvia Frühwirth-Schnatter, Vienna University of Economics and Business (WU).
Assistant supervisor: Prof. Daniel Thorburn.

2007–2008 **Master's Degree in Statistics**, Dalarna University, Sweden.

2003–2007 **Bachelor's Degree in Statistics**, Renmin University of China.

Research interests

Technology-Driven Forecasting ○ Econometrics ○ Machine Learning ○ Bayesian Inference & Statistical Computing ○ Distributed Statistical Computing

- Dr. Feng Li has authored over 40 peer-reviewed papers since 2010.
- He has an H-index of 20 and more than 3000 citations (Google Scholar).
- He has co-authored over 20 R packages and Python libraries on time series forecasting and machine learning.

Editorial boards

- Associate Editor, International Journal of Forecasting (ABS 3, JCR Q1; 2025–)
- Associate Editor, Journal of Multivariate Analysis (2026–)

Computational skills

- Extensive experience with AI computing on large Linux CPU/GPU clusters, leveraging Apache Spark for distributed data processing.
- Proficient in R, Python, Julia, MATLAB, Scala, and Bash, with strong foundations in C/C++ for performance-critical statistical methods and applications.
- Skilled in developing and deploying scalable statistical, forecasting, and machine learning solutions, including open-source packages optimized for big data environments.

Grants

Dr. Feng Li has secured more than CNY 3 million in internal and external research grants since 2013.

- Distributional Forecasting and Information Mechanisms in Financial Markets Based on Audiovisual Behavior Signals. Funded by the **National Natural Science Foundation of China** (2026–). **Principal Investigator**.
- Statistical Learning and Management Practices in Large-Scale Business Scenarios. Funded by the **National Natural Science Foundation**

of China (2025–). **Subproject Principal Investigator, CNY 500K**.

- Evaluation on Sports Betting Market. Funded by the **Hong Kong Jockey Club (Beijing)** (2024–2025). **Principal Investigator, CNY 670K**.
- Hierarchical Economic Forecasting from a Global Modeling Perspective. Funded by the **National Social Science Fund of China** (2022–2025). **Principal Investigator, CNY 200K**. (**Rated "Excellent"** in the final evaluation.)
- Complex Time Series Forecasting for E-commerce. Funded by the **Alibaba Innovative Research Program** (2021–2023). **Principal Investigator, CNY 480K**.
- Development of Methodologies for Objective Performance Criteria-Based Single-Arm Trials for the Clinical Evaluation of Traditional Chinese Medicine. Funded by the **National Natural Science Foundation of China** (2020–2024). **Key Investigator, CNY 150K**.
- Efficient Bayesian Flexible Density Methods with High-Dimensional Financial Data. Funded by the **National Natural Science Foundation of China** (2015–2018). **Principal Investigator, CNY 180K**.
- Bayesian Multivariate Density Estimation Methods for Complex Data. Funded by the **Ministry of Education, China** (2014–2016). **Principal Investigator, CNY 50K**.

Publications

Dr. Feng Li has an extensive publication record, including more than 40 peer-reviewed papers, a monograph on distributed computing, and two online textbooks. His research spans Bayesian statistics, time series forecasting, machine learning, and distributed statistical computing, with articles appearing in leading journals such as *International Journal of Forecasting*, *European Journal of Operational Research*, *Contemporary Accounting Research*, and *Journal of Computational and Graphical Statistics*. His contributions include methodological advances in forecasting, distributed computing, and machine learning. His work integrates methodological innovation with applications in economics, finance, tourism, e-commerce, public health, and safety science. The complete publication list is available at https://scholar.google.com/citations?user=IN2QMXYAAAAJ.

Peer-review services

- Dr. Feng Li has served as a reviewer for more than 60 leading journals and conferences, completing more than 160 peer reviews since 2013. His peer-review contributions span leading outlets in statistics, AI, and management, as listed below. Recent review records are available at https://orcid.org/0000-0002-4248-9778.

Statistics	Journal of the American Statistical Association, Journal of the Royal Statistical Society: Series B (Statistical Methodology), Bayesian Analysis, Journal of Business & Economic Statistics, Annals of Applied Statistics, Mathematical Statistics and Management
Computer Science and AI	IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI), IEEE Transactions on Knowledge and Data Engineering (TKDE), Neurocomputing, Pattern Recognition, Chinese Journal of Computers
Economics and Management	International Journal of Forecasting, Insurance: Mathematics & Economics, Annals of Tourism Research, Computational Economics, Omega: The International Journal of Management Science

- He has also reviewed conference papers for the 7th International Conference on Computational Social Science (2021) and the 2021 IEEE PES Innovative Smart Grid Technologies Conference Europe.
- He has served as an examiner for more than 30 doctoral theses worldwide, including theses from Peking University, Fudan University, the University of Science and Technology of China, and Monash University.
- He has served as a peer-review expert for the National Social Science Fund of China.

Research and teaching awards

- Second Prize of the Teaching Achievement Award of Peking University (2025).
- The IJF Best Paper Award for 2022–2023.
- Grand Prize in the Point Forecasting Track and Second Runner-Up Prize in the Tourism Forecasting Competition II, March 2025.
- Second Prize in the Second National Experimental Teaching Case Competition for Economics and Management Disciplines in Higher Education Institutions.
- The 2014 Cramér Prize for best Ph.D. thesis in Statistics in Sweden, March 2014.
- International Society for Bayesian Analysis Junior Travel Award, June 2012.
- Travel grant from the Knut and Alice Wallenberg Foundation, August 2011, Sweden.
- Outstanding graduate student, honored by Beijing Municipal Education Commission, July 2007, China.

Software

Dr. Feng Li has developed more than 20 open-source R and Python packages for statistical analysis, time series forecasting, and machine learning, many of them optimized for large-scale computation on Apache Spark and GPU platforms. His software contributions include widely used tools for hierarchical forecasting, distributed ARIMA, quantile regression, and synthetic time series generation, several of which are featured in R Task Views. The source code is available at `https://github.com/feng-li`.

Package	Description	Language	Environment	Available on	Related Publication

Teaching

Dr. Feng Li has over a decade of teaching experience at leading universities, delivering courses at undergraduate, graduate, and MBA levels in statistics, big data, and AI-driven forecasting. He has taught more than 2,000 hours to more than 5,000 students since 2008, consistently achieving high student evaluation scores.

His teaching portfolio includes foundational topics such as regression analysis, econometrics, and Bayesian statistics, as well as advanced courses on distributed statistical computing, forecasting with AI, and big data computation. He has taught in both English and Chinese, integrating cutting-edge research and real-world applications into the classroom. Dr. Li emphasizes interactive, problem-solving–oriented learning and the use of open educational resources, with all course materials made publicly accessible.

Course	Level	Credit	Place	Year
AI-Powered Business Forecasting and Decision-Making	EMBA	2	PKU	2026–
Forecasting with AI	MBA, G, U	2	PKU	2025–
Big Data Computation and Forecasting	G	2	PKU	2025–
Distributed Storage and Computing	G	2	PKU	2020–2024

(*All course materials are available at* `https://feng.li/teaching/`. *Courses marked with * are taught in English. U: undergraduate level, G: graduate level.*)

Teaching Development Projects

- 2023: CUFE Teaching Method Research Project, *Curriculum Ideology and Politics Construction for Statistical Computing in the AI Era*.
- 2019: CUFE New Course Development Project for the Data Science and Big Data Technology Program.
- 2018: CUFE Excellent Experimental Course Project, *Statistical Computing* (completed with excellent evaluation).

Mentorship

- Dr. Feng Li has co-supervised five Ph.D. students and led the KLLAB.org research group.
- He has mentored more than 50 undergraduate and graduate students, including MBA and EMBA students.
- He has served as an academic mentor for the Peking University–University of Hong Kong EMBA Program.
- He has served as a mentor for the 2026 Guanghua–Volkswagen Group Integrated Practicum Project on supply chain and AI-driven finance.
- He has supervised research students on projects in forecasting, machine learning, and big data analytics. His students have gone on to prestigious placements, including positions at the United Nations, doctoral studies at leading universities, and roles in top technology firms such as ByteDance and Tencent. Others have joined major financial institutions and research organizations.
- He has also mentored student teams in recognized international competitions, such as the United Nations Big Data Hackathon (2022–2023).

Conference organization

Dr. Feng Li has led major academic events, including the 45th International Symposium on Forecasting (2025), which attracted leading scholars and industry experts worldwide. His workshops and conferences have advanced global collaboration in forecasting, Bayesian computation, and statistical computing.

- 2025: The 45th International Symposium on Forecasting. June 28–July 2, Beijing, China. Local Chair.
- 2025: The 2025 Guanghua Workshop on Forecasting. July 3, Beijing, China. Organizer.
- 2024: The 2024 PKU Workshop on Modern Bayesian Computation. December 9, Beijing, China. Organizer.
- 2017: The 2017 Beijing Workshop on Forecasting. November 18, 2017, Beijing, China. Organizer.
- 2016: Annual Conference of the Chinese Association of Quantitative Economics, October 15–17, Beijing, China. Organizer.
- 2014: International Symposium on Financial Engineering and Risk Management 2014. June 27–28, 2014, Beijing, China. Executive Secretary and Organizer.
- 2013: The First Swedish Research Students Conference in Statistics, April 18–19, Stockholm, Sweden. Organizer.
- 2013: 2012–2013 Ph.D. Study Group, Department of Statistics, Stockholm University.

Presentations and invited talks

Dr. Feng Li has delivered over 30 invited talks and presentations at prestigious international conferences, workshops, and universities worldwide, including the International Symposium on Forecasting, IEEE International Conference on Data Mining, and the World Meeting of the International Society for Bayesian Analysis. His engagements span topics in forecasting, Bayesian computation, machine learning, and big data analytics. Slides are available at https://feng.li/talks/.

[44] *The 86th Annual Meeting of the Academy of Management*, July 3–August 4, 2026, Philadelphia, United States. **PDW Workshop Organizer**.
[43] *EAC-ISBA Conference 2026*, July 23–25, 2026, Kunming, China. **Program Committee Member and Invited Speaker**.
[42] *The 4th Joint Conference on Statistics and Data Science in China*, July 11–13, 2026, Guiyang, China. **Invited Speaker**.
[41] *The 3rd International Forum on Quantitative Tourism Research (IFQTR 2026)*, July 7–8, 2026, Ningbo, China. **Keynote Speaker**.
[40] *International Forum on Data Science (IFoDS)*, July 3–4, 2026, Beijing, China. **Invited Speaker**.
[39] *Who Forecasted Best? Insights from the ATR Forecasting Competition on Tourism Recovery*, July 3, 2026. **Invited Speaker**.
[38] *Workshop on Learning Spatial and Temporal Dependence in the Age of AI*, Tsinghua Sanya International Mathematics Forum (TSIMF), January 5–9, 2026, Sanya, China. **Invited Speaker**.
[37] *The 2025 NBER-NSF Time Series Conference*, September 19–20, 2025, New Jersey, United States. **Contributed Presentation**.
[36] *The 3rd Joint Conference on Statistics and Data Science in China*, July 11–13, 2025, Hangzhou, China. **Invited Speaker**.
[35] *Quarterly Forecasting Forum* (International Institute of Forecasters), University of Bath School of Management, February 14, 2025, UK. **Invited Speaker**.
[34] *The 7th International Conference on Econometrics and Statistics (EcoSta 2024)*, July 17, 2024, Beijing, China. **Invited Speaker and Session Organizer**.
[33] *Seminar at Guanghua School of Management*, Peking University, January 2, 2024, Beijing, China. **Invited Speaker**.
[32] *The 44th International Symposium on Forecasting*, June 30–July 2, 2024, Dijon, France. **Invited Speaker and Session Organizer**.
[31] *The 23rd IEEE International Conference on Data Mining*, December 1–4, 2023, Shanghai, China. **Invited Speaker**.
[30] *The 9th International Forum on Statistics (RUC IFS 2023)*, July 14–15, 2023, Beijing, China. **Invited Speaker**.
[29] *The 2023 ICSA China Conference*, June 30–July 3, 2023, Sichuan, China. **Invited Speaker**.
[28] *The 41st International Symposium on Forecasting*, July 27–30, 2021. **Invited Speaker and Session Organizer**.
[27] *The 2021 World Meeting of the International Society for Bayesian Analysis*, June 28–July 2, 2021. **Invited Speaker**.
[26] *The 40th International Symposium on Forecasting*, Virtual, October 25–November 5, 2020. **Invited Speaker and Session Organizer**.
[25] *Twelfth International Conference on Monte Carlo Methods and Applications (MCM 2019)*, Sydney, Australia, July 8–12, 2019. **Invited Speaker**.
[24] *The 39th International Symposium on Forecasting*, Thessaloniki, Greece, June 16–19, 2019. **Invited Speaker and Session Organizer**.
[23] *ICSA Conference on Data Science*, January 11–13, 2019, Xishuangbanna, China. **Invited Speaker**.
[22] *School of Data Science*, Fudan University, October 28–30, 2017, Shanghai, China. **Invited Speaker**.
[21] *International Symposium on Financial Engineering and Risk Management 2018*, June 13, 2018, Shanghai, China. **Invited Speaker**.
[20] *School of Data Science*, Fudan University, October 28–30, 2017, Shanghai, China. **Invited Speaker**.
[19] *IMS-China International Conference on Statistics and Probability*, June 28–July 1, 2017, Nanning, China. **Invited Speaker**.
[18] *The 1st International Conference on Econometrics and Statistics*, Hong Kong, June 15–17, 2017. **Invited Speaker**.
[17] *The 2016 World Meeting of the International Society for Bayesian Analysis*, June 13–17, 2016, Sardinia, Italy. **Invited Speaker**.
[16] *IMS-China International Conference on Statistics and Probability*, June 1–4, 2015, Kunming, China. **Invited Speaker**.

[15] *The 10th National Conference on Probability and Statistics*, October 17–21, 2014, Jinan, China. **Invited Speaker**.
[14] *International Symposium on Financial Engineering and Risk Management 2014*, June 27, 2014, Beijing, China. **Invited Speaker and Local Organizer**.
[13] *Big Data Decision-Making and Compliance Forum*, May 20–21, 2014, Shenzhen, China. **Invited Speaker**.
[12] *Guanghua School of Management*, Peking University, October 14, 2013, Beijing, China. **Invited Speaker**.
[11] *The Stockholm University Forskardagarna*, October 2–3, 2013, Stockholm, Sweden. **Invited Speaker**.
[10] *The 59th World Statistics Congress*, August 25–29, 2013, Hong Kong. **Invited Speaker**.
[9] *The 2012 World Meeting of the International Society for Bayesian Analysis*, June 25–29, 2012, Japan. **Poster Presentation**.
[8] *The third Linnaeus University Workshop in Stochastic Analysis and Applications*, May 24–25, Växjö. **Invited Speaker**.
[7] *Seminar at Department of Energy and Technology*, Swedish University of Agricultural Sciences, April 16, 2012, Sweden.
[6] *Workshop on "Analysis of High-Dimensional Data"*, Jönköping International Business School, February 16–17, 2012, Sweden. **Invited Speaker**.
[5] *The LiU Seminar Series in Statistics and Mathematical Statistics*, Linköping University, October 11, 2011, Sweden. **Invited Speaker**.
[4] *The 42nd Winter Conference in Statistics – Incomplete data: semi-parametric and Bayesian methods*, March 6–10, 2011, Sweden. **Invited Speaker**.
[3] *The 2010 World Meeting of the International Society for Bayesian Analysis*, June 3–8, 2010, Spain. **Poster Presentation**.
[2] *Seminar at Department of Statistics*, Uppsala University, September 16, 2009, Sweden.
[1] *Conference "Modeling and Forecasting Economic and Financial Time Series with State-Space Models"*, Central Bank of Sweden, October 17–18, 2008.

Academic Visits

[9] September 2025, Rutgers University, United States.
[8] February 2025, University of Bath School of Management, UK.
[7] October 2024, University of Sydney Business School, Australia.
[6] January 2016, Annual Meeting of the American Economic Association, United States.
[5] August 2014, University of Toronto, Canada.
[4] October 2013, Stockholm University, Sweden.
[3] September 2011–February 2012, Division of Statistics, Department of Computer and Information Science, Linköping University, Sweden.
[2] June 2011, University of Southampton, UK, for the intensive Ph.D. course "Introduction to Bayesian Analysis and MCMC, and Hierarchical Modeling of Spatial and Temporal Data" by Alan Gelfand (Duke University) and Sujit Sahu.
[1] May 2009, Erasmus University Rotterdam, The Netherlands, for the intensive Ph.D. course "Semi-Parametric Bayesian Inference in Econometrics" by Peter Rossi (University of Chicago).

Society Memberships and Academic Service

- Council Member, Decision Sciences Branch, Operations Research Society of China (2025–)
- Council Member, Forecasting Science and Business Intelligence Branch, Chinese Society of Optimization, Overall Planning and Economical Mathematics (2025–)
- Council Member, Beijing Statistics Association (2023–)
- Council Member, Risk Management Branch, China Civil Engineering Society (2023–)
- Executive Council Member, National Teaching Research Association for Industrial Statistics (2018–2023); Deputy Secretary-General, China Young Statisticians Association (2018–2023)
- Deputy Secretary-General, Higher Education Branch, China Statistical Education Association (2014–2023)
- Member, International Institute of Forecasters
- Member, American Statistical Association
- Member, International Society for Bayesian Analysis
- Member, International Chinese Statistical Association
